

Basic Tree Survey and Inspection

This course aims to provide specific tree survey and inspection training at a basic level for contractors, highway engineers, tree wardens, grounds maintenance staff, rangers and other persons of a non-arboricultural background or with limited arboricultural knowledge, to allow them to identify obvious defects from ground level and then to report their findings to a line manager. This course is suitable for any persons employed as local authority highway inspectors, forestry, woodland or arboricultural employees, estate or park rangers, farmers and other landowners or their employees who may have a responsibility for trees in the course of their work. Additionally, this course may be useful for those who work with trees in a voluntary capacity.

One Day Training
09.00 – 16.30 approx.
